Canadian Intellectual Property Office

Canada

Trade-marks Journal
Vol. 63 No. 3197

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

The Arabic characters appearing on the trade-mark translate into 'Qatar Solar Technologies' and transliterate into 'Qatar Letaqniat Altaqa Alshamsiah'.

GOODS

Class 01

(1) Silicon; silicon blocks, silicon discs

Class 06

(2) Fixed metal stands and other metal installations, namely metal towers, metal frameworks, metal poles, metal stands and metal supports, all for use in electrical power plants in connection with photovoltaic cells, solar cells, photovoltaic and solar modules used to convert light energy and solar radiation into electrical energy

Class 09

(3) Solar batteries; solar cells; solar wafers; automatic solar tracking sensors; wafers for solar cells; solar panels for electricity generation; electronic sensors for measuring solar radiation; solar panels for production of electricity; photovoltaic apparatus, namely polycrystalline and monocrystalline silicon modules/panels and installations for generating solar electricity; photovoltaic apparatus for converting solar radiation to electrical energy, namely, polycrystalline and monocrystalline silicon modules/panels; silicon chips; silicon wafers; silicon carbide diodes; single-crystal silicon wafers

Class 16

(4) Newsletters, brochures, and booklets featuring information regarding solar energy and solar energy technology

SERVICES

Class 35

(1) Distribution of apparatus, namely polycrystalline and monocrystalline silicon modules/panels, polycrystalline and monocrystalline silicon ingots, wafers and cells for providing solar power including solar cells and solar modules; wholesale, importing and distribution services of solar systems, namely solar panels, solar cells and solar collectors; wholesale, importing and distribution of parts and accessories for all of the foregoing; business management and consultation in the field of solar engineering

Class 37

(2) Installation of solar heating systems; installation and maintenance of solar thermal installations; installation, maintenance and repair of solar collectors; installation, maintenance and repair of solar installations for generating power, solar collectors and photovoltaic modules; installation, maintenance and repair of solar energy systems; installation, maintenance and repair of solar installations for generating power; installation, maintenance and repair of boiler systems and solar energy systems

Class 40

(3) Generation of solar electricity; generation of electricity from solar energy; generation of electricity using solar energy; generation of electrical energy from wave, wind and solar sources

Class 42

(4) Design and development of software for control, regulation and monitoring of solar energy systems; research and development services in the field of solar cells and electricity generation; scientific and industrial research in the field of photovoltaic and solar collectors; technical development of structural elements, devices and systems, namely solar module/panel mounting systems, invertors to convert DC electricity to AC electricity, communication systems to control the inverters and module performance, voltage surge protectors, batteries to store solar energy, battery containers, charge controllers, and DC and AC cables for solar collectors and photovoltaic plants

GOODS

Computer hardware; integrated circuits; system-on-chip integrated circuits; microprocessors; processors [central processing units]; chips [integrated circuits]; application specific integrated circuits; graphics processing units namely integrated circuit components for graphics; semiconductor intellectual property cores; instruction set architectures; RISC-based instruction set architectures; microcontrollers; architecture extensions to semiconductor intellectual property cores ; electronic chips for the manufacture of integrated circuits; interfaces for computers namely computer interface boards, computer interface cards, bus interfaces [integrated circuits]; printed circuit boards; electronic circuit boards; telephones; mobile computing devices, namely portable computers, laptop computers, notebook computers, subnotebook computers, ultra-mobile computers, tablet computers, Internet tablet computers, personal portable computers, personal digital assistants, personal digital assistants with integrated mobile telephone functionality, mobile telephones, smart phones, handheld computers, handheld game consoles, Global Positioning System (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices, navigation apparatus for vehicles in the form of on-board computers and personal media players; computer servers; motion sensors, optical sensors, proximity sensors, timing sensors, thermal sensors, acceleration sensors, temperature sensors, pressure sensors and pollutant sensors; ubiquitous system devices; smart devices, namely smart cards, smart card readers, smart meters, smart remote controllers, smart wrist bands, smart watch phones and smart pens; wearable mobile devices, namely arm bands, fitness bands, computer watches, wristbands and head-worn computing devices; wearable computers; set top boxes; modems; electronic gateways; cellular connected gateways; video encoders and transcoders; electronic book readers; computer data terminals; apparatus for wireless communications namely radio transmitters and receivers for telecommunication; televisions; smart televisions; horizontal surface computers; mp3 players; mp4 players; electronic security devices namely security scanners, security sensors, personal security alarms, security and fire alarms; electronic smart lighting devices namely electric control systems for lighting systems, lighting control panels; electronic energy monitoring devices namely home temperature monitors and control panels; computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores, semiconductor intellectual property cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; computer software used in,

and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices; microprocessor design files; computer operating programs; security software; electronic publications (downloadable or streamable) all relating to electronic equipment, microprocessors, computer hardware, computer software, integrated circuit based devices; Printed publications all relating to electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; printed materials all relating to processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; instruction manuals relating to design and development of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; instruction manuals relating to design and development of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, macro cells, microcontrollers, bus interfaces and printed circuit boards; user and development manuals all relating to the design and development of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; user and development manuals all relating to the design and development of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, microprocessor cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; printed materials concerning the performance and technical characteristics of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; printed publications concerning the performance and technical characteristics of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, microprocessor cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards.

SERVICES

Advertising services for others and developing promotional campaigns for others relating to electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; advertising services for others and developing promotional campaigns for others relating to processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; Maintenance and support services relating to electronic equipment , microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; The transmission of computer software, data and information in the field of design and development of electronic data processing equipment, microprocessors,

system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, electronic devices that send and receive data in a connected network, microprocessor cores, macro cells, microcontrollers, bus interfaces and printed circuit boards via the Internet and computer communication networks; providing on-line chat rooms, bulletin boards and community forums for the transmission of messages among computer users in the field of design and development of electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, electronic devices that send and receive data in a connected network, microprocessor cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; Provision of manuals, articles, tutorials, newsletters, books, magazines, journals, brochures, research papers and white papers in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; provision of manuals, articles, tutorials, newsletters, books, magazines, journals, brochures, research papers and white papers in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; publication of educational and training books, texts and computer software in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; publication of educational and training books, texts and computer software in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; provision of education and training in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; provision of education and training in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; providing online electronic publications in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; providing online electronic publications in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; production of radio, television and Internet programmes in the area of electronic equipment, microprocessors, system-on-chip devices , processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; production of radio, television and Internet programmes in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; organising and conducting events, exhibitions, workshops, courses, seminars, training and conferences in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures;

organising and conducting events, exhibitions, workshops, courses, seminars, training and conferences in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; arranging and conducting competitions, quizzes and lotteries in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; arranging and conducting competitions, quizzes and lotteries in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; provision of audiovisual content on-line via a global computer network or internet in the area of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; provision of audiovisual content on-line via a global computer network or internet in the area of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices; Design and creation of intellectual property and related rights; research, development, design, technical consultancy and technical support services, all relating to electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures; research, development, design, technical consultancy and technical support services , all relating to processor-based devices, integrated circuits, computer hardware, computer software , integrated circuit based devices, microprocessor cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; research, development, design, technical consultancy and technical support services, all relating to computer software; research, development, design, technical consultancy and technical support services, all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores, semiconductor intellectual property cores and architecture extensions to semiconductor intellectual property cores; research, development, design, technical consultancy and technical support services, all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification , construction and interfacing of macro cells, system-on-chip devices, micro-controllers, bus interfaces and printed circuit boards; research, development, design, technical consultancy and technical support services, all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices; research, development, design, technical consultancy and technical support services, all relating to computer software used in servers, operating system software, web services software, and security and cryptographic software; Licensing of intellectual property and related rights; licensing of microprocessor designs; licensing of semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures and architecture extensions to semiconductor intellectual property cores; licensing of technology and computer software.

EMBER ATOM

Authorisation For Use
Consent from Jeffrey Watson, on behalf of EMBER ATOM, is of record.

GOODS

(1) Audio and audio-visual recordings embodying performances by a musical artist or group, namely in the form of pre-recorded compact discs, pre-recorded DVDs, pre-recorded high definition optical discs, pre-recorded CD-ROMs, pre-recorded video tapes, pre-recorded vinyl discs and digital audiotapes containing pre-recorded music and digital videodiscs containing pre-recorded musical performances.

(2) Audio and audio-visual recordings embodying performances by a musical artist or group, namely in the form of downloadable music files accessible by means of computer networks and telecommunications technology.

(3) Artist and literary works, namely printed booklets in pre-recorded records, illustrations and photographs on pre-recorded record covers and paintings.

(4) Lyrics and poetry in printed form, namely inserts into pre-recorded compact discs, DVDs, high definition optical discs, CD-ROMs, video tapes and vinyl discs.

(5) Lyrics and poetry in printed form, namely embedded into downloadable music files accessible by means of computer networks and telecommunications technology.

(6) Promotional and souvenir items, namely badges, novelty buttons, posters, brochures, stickers, key chains, concert tour programs, pennants, flags, statuettes, souvenir albums, water bottles, flasks, matchbook covers, lighters, guitar picks, photographs, postcards, bumper stickers, heat transfers, iron on decals, temporary tattoos, mugs, jewelry, calendars, pencil cases, watches and wallets.

(7) Paper goods and stationary, namely autograph books, pens, paper weights, crests, emblems, patches and invitations.

(8) Clothing relating to a musical artist or group, namely t-shirts, long sleeve shirts, caps, sweatshirts, hooded sweatshirts, sweatpants, tour jackets, sweaters, sport shirts, knit shirts, tank tops, sleepwear, underwear, beachwear, scarves, pants, jeans, shorts, coats, hats, belts, belt buckles, wristbands and headbands.

(9) Sports and athletic equipment, namely suitcases, athletic bags, duffle bags, shoulder bags, school bags, tote bags, beach bags, book bags, purses and handbags.

(10) Multimedia and gaming items, namely multimedia software recorded on DVDs, high definition optical discs and CD-ROMs (all containing music, musical works and dramatic performances).

(11) Publications, namely magazines, catalogues, newsletters and books.

SERVICES

(1) Entertainment services, namely live entertainment comprising musical performances, dramatic performances and comedic performances by an actor, actors, or a musical artist or group; arranging, organizing and conducting cultural events and entertainment events in the nature of live entertainment comprising musical performances, dramatic performances and comedic performances by an actor, actors, or a musical artist or group; and personal appearances by an actor, actors, or a musical artist or group.

(2) Entertainment services, namely providing musical sound and video recordings by means of telecommunications technology; and musical, dramatic and comedic performances that are communicated to the public by means of a global computer network.

(3) Entertainment services, namely appearances by an actor, actors, or a musical artist or group in television shows, films and entertainment programs and fan club services.

(4) Recording and producing audio and audio-visual recordings, namely recordings embodying performances of a musical artist or group and recordings in the fields of music, video, television and film.

(5) Providing information regarding musical artists or groups and providing recorded performances of musical artists or groups, namely by means of global computer network; by means of a website featuring musical performances, musical videos, photographs and other multimedia materials, and personal information regarding an actor, actors, or musical artist or group and their live and recorded performances; and by means of telecommunications technology.

- Black

Colour Claim
Colour is claimed as a feature of the trade-mark. The colour(s) red, green, white, and black is/are claimed as a feature of the mark. The mark consists of a tilted stylized design of a black pot appearing on top of a red colour fan shape. There are two peppers in the pot, the pepper on the left is green and the pepper on the right is red, each with a white zigzag highlight mark on it. Below the pot and within the red background is "HOT SPACE". "HOT" appears in white with flames at the top of the "O" "SPACE" appears in black with a darker shaded bold red underline. To the right of the design are four black Chinese characters. "HOT" in red and "SPACE" in black appears underneath the characters. The white colour in the background is not claimed as a feature of the mark.

Foreign Character Translation
Transliteration of the Chinese characters in the mark is MA LA KONG JIAN. MA LA means 'hot' in English, KONG JIAN means 'space' in English.
